

EXPERIENCE ► INNOVATION ► SUSTAINABILITY

SUPERYACHT OPERATIONS, WITHOUT COMPROMISE

In a world where expectations are uncompromising, fuel quality and machinery performance must be flawless. Every voyage, every port.

WHAT WE TEST

Coolants, Main Engines and Auxiliaries.

Gearboxes and Thrusters.

Other Critical Lubricated Equipment.

WHY YACHTS OPERATORS USE VPS

EASE

One partner, one solution.
Simplifies operations, reduces complexity and saves time.

STRATEGIC LOCATION

Global network of trusted ports and bunkering hubs, wherever your yacht operates.

DIGITALISATION

Real-time data, online monitoring and digital tools for full transparency, control and efficiency.

CONTINGENCY

Prepared for the unexpected, with back-up solutions, expert support and rapid response.

CONTINUITY

Keeps your yacht moving, with reliable fuel, machinery and services, voyage after voyage.

GLOBAL, YET PERSONAL

Coverage across the Mediterranean, Caribbean, Middle East and Asia.

Rapid turnaround with minimal operational disruption.

Direct access to technical expertise when it matters most.

Secure digital insights across your fleet.

FUEL INTEGRITY

Independent testing to ensure every bunker meets specification, protecting engines, schedules, and guest experience.

MACHINERY ASSURANCE

Advanced oil condition monitoring to preserve engine health, extend component life, and prevent unplanned downtime.

FLEET INSIGHTS THAT DRIVE RESULTS

Fleet-wide visibility of equipment condition by vessel or by system.

Trend analysis by parameter and system.

Identify issues early and optimize maintenance schedules.

Secure, easy-to-use digital dashboards for your team.

Global coverage | 200+ Ports Worldwide
